

SABAHAT ATTA

FULL STACK DEVELOPER

CONTACT

- +92-315-5632585
- sabahatatta555@gmail.com
- Pakistan

PROFILE

Full-Stack Developer with over 5 years of professional experience in web and mobile application development, application support, troubleshooting, system integration, deployment, and software maintenance. Skilled in JavaScript/TypeScript, React.js, Next.js, Node.js, PHP, Python, SQL databases, and API integration. Experienced in debugging, root-cause analysis, software testing, third-party integrations, application configuration, technical documentation, and user support, with strong problem-solving, communication, and cross-functional collaboration skills.

EDUCATION

- Allama Iqbal Open University**
MS in Computer Science
2025 - Present
- Air University**
AI Agents & Robots Engineering
2024
- University of Wah**
MSC in Computer Science
2017 - 2019

TECHNICAL SKILLS

Front-End

React.js • Next.js • Redux • Redux
Toolkit • HTML5 • CSS3 • Tailwind
CSS • Bootstrap

Back-End

Node.js • PHP • Django • Django
REST Framework • Flask • Spring
Boot • Spring MVC • Spring
Security

WORK EXPERIENCE

XingaBots | Developer

Mar 2021 - Aug 2026

- Developed and maintained web and mobile applications supporting operational and business requirements.
- Performed coding, debugging, software testing, troubleshooting, and root-cause analysis to resolve application issues.
- Supported application deployments, software releases, system updates, and post-deployment maintenance to ensure reliability and performance.
- Worked with SQL databases, application data, APIs, and third-party system integrations across web and mobile solutions.
- Assisted with application configuration, system settings, technical documentation, and user-related technical support.
- Collaborated with cross-functional teams on application components, portals, integrations, technical improvements, and issue resolution.

Freelance Web Developer | Project-Based

Apr 2018 - Present

- Developed and delivered responsive websites and web applications for freelance clients across different business sectors.
- Built websites using HTML5, CSS3, JavaScript, responsive design, and modern UI/UX practices.
- Created the Arzoo Travels website to showcase travel services, tour packages, and customer information.
- Worked on website redesign, debugging, performance improvements, deployment, and ongoing maintenance.
- Developed client websites for travel, healthcare, optical, manufacturing, automotive, creative, and professional service businesses.
- Managed projects from requirements gathering and development to testing, launch, and post-deployment support.

Programming

Python • JavaScript • TypeScript •
Java • SQL • C • C++ • C#

Databases

PostgreSQL • MySQL • MongoDB
• SQLite • Redis

APIs & Integration

RESTful APIs • API Development •
API Integration • Google Maps API •
OpenAI API

Cloud & DevOps

Cloud Computing • AWS EC2 • AWS
S3 • AWS RDS • Docker • Docker
Hub • Git • GitHub • GitHub Actions
• Jenkins • CI/CD

Testing & Software Quality

Software Testing • Unit Testing •
Integration Testing • Jest • React
Testing Library • JUnit • Mockito •
Debugging • Application Maintenance
• Issue Resolution • Deployment
Support • Performance Monitoring
• Reliability Support

Data Structures & Algorithms

Arrays • Strings • Hash Maps • Linked
Lists • Stacks • Queues • Trees •
Graphs • Sorting • Binary Search •
Recursion • BFS • DFS • Big-O
Complexity

AI & Intelligent Systems

Intelligent Agents • Agentic Systems •
Robotics Engineering • NLP •
TensorFlow

API Tools & Documentation

Postman • Swagger • OpenAPI

Problem Solving Platforms

HackerRank • CodeChef • University
Speed Programming Competition

Selected Projects

WorkSphere — Company LMS

HTML5 • CSS3 • JavaScript • localStorage

- Built a **role-based workforce management** platform supporting employee attendance, task assignment, performance evaluation, payroll, company-issued assets, messaging, announcements, and management dashboards across multiple user roles.

Live: <https://sabahatatta555.github.io/WorkShere/PulseTrade> — **Paper Trading & Market Analytics**

HTML5 • CSS3 • JavaScript • Canvas Charts • localStorage

- Developed an interactive **stock paper-trading and market analytics platform** with simulated market data, technical indicators, market/limit/stop orders, virtual portfolio management, watchlists, transaction history, and profit/loss tracking.

Live: <https://sabahatatta555.github.io/Pulse-Trade/>

Velora — E-Commerce Marketplace

HTML5 • CSS3 • JavaScript • localStorage • sessionStorage

- Developed a responsive **e-commerce marketplace** supporting product discovery, search and filtering, product detail views, saved items, shopping bag management, checkout, order creation, purchase history, account preferences, and local authentication.

Live: [Live: https://sabahatatta555.github.io/Pulse-Trade/](https://sabahatatta555.github.io/Pulse-Trade/)

Northbridge University LMS

HTML5 • CSS3 • JavaScript • localStorage

- Built a **role-based university learning management system** for students, instructors, and administrators, covering courses, assignments, quizzes, examination marks, grades, attendance, calendars, messaging, announcements, digital resources, and instructor grading workflows.

Live: <https://sabahatatta555.github.io/UniLMS/>

Full Stack Development Projects

CareLens — Healthcare Price & Booking Platform

React.js • Spring Boot • MySQL • Redis • Google Maps API • PayFast • AWS

- Developed a full-stack healthcare platform for comparing medical service prices, locating nearby hospitals and clinics, booking appointments, and processing online payments through a Pakistan-supported payment gateway.

Live: <https://github.com/SabahatAtta555/carelens.git>

CareerPilot AI — AI Career Development Platform

React.js • Python • FastAPI • PostgreSQL • OpenAI API • NLP • AWS

- Built an AI-powered career platform that analyzes resumes, identifies skill gaps, evaluates job-role compatibility, and generates personalized learning roadmaps and career recommendations.

Live: <https://github.com/SabahatAtta555/CareerPilot-AI.git>

Course LMS — Online Learning & Certification Platform

React.js • Python • FastAPI • PostgreSQL • OpenAI API • NLP • AWS

- Built a full-stack LMS with user authentication, course enrollment, progress tracking, interactive quizzes, automated scoring, and certificate generation for successful learners.

Live: <https://github.com/SabahatAtta555/Course-LMS.git>

AI & COMPUTER VISION PROJECTS

Automatic System for Skin Cancer Detection

MATLAB • Final-Year Project • 2019

- Designed and implemented a software-based skin cancer detection system using MATLAB.
- Brain Tumor Detection • Skin Condition Detection • Breast Cancer Detection • Human Body Shape & Size Detection

PROGRAMMING ACHIEVEMENT

University Speed Programming Competition — 2019

- Participated in a university-level speed programming competition.
